VERSION 2.0

Ultimate Stylized Business Women

Thank you for purchasing version 2.0 of the **Ultimate Stylized Business Women** asset! This guide will walk you through the support and features available to you.
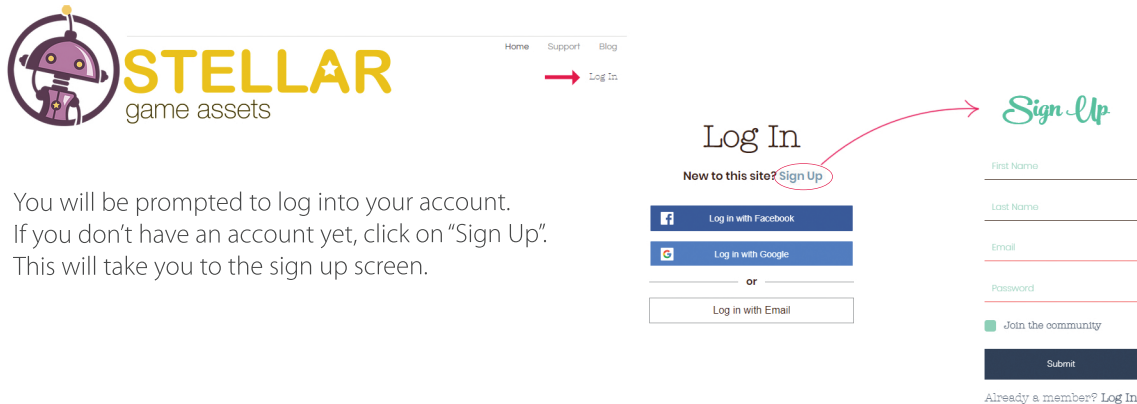

When you buy any version of this asset, all previous versions are also available to you. This prevents package updates from overwriting a version you may have preferred.

How to Access Previous Versions
To unlock previous versions of the asset, you will need to create a member account at **www.stellargameassets.com**.

Step One: Click on the "Log In" button at the top right of the page.

You will be prompted to log into your account.
If you don't have an account yet, click on "Sign Up".
This will take you to the sign up screen.

Signing up for an account allows me to link your past purchases with you and grant you access to the old versions. I **do not** use your information for any other purposes.

Step Two: Once you have created an account, go to **www.stellargameassets.com/version-request**

Check off that you are already a site member (or sign up if you haven't completed step one.) This will load a form for you to request access to the old character versions.

Enter all of the required information and submit the form.

Once you have submitted the form, please allow 1-2 working days for me to process the request.

Step Three: You'll receive an email inviting you to access a folder corresponding to the character you purchased.

Click on the link. If you aren't logged in to the site, you will be prompted to do so.

You should now see the archive page for all of the old character versions! Simply check off the one you want and click "download".

The zip file contains a UNITYPACKAGE file in the state it was in for that version. You can import it into your Unity project as a custom package.

You're Invited to Access a Folder

stephanielrsn from Stellar Game Assets has invited you to view the folder **Rhett Cosmo: Stylized Casual Character**.

Go To Folder

Files > Rhett Cosmo: S   ⬇ Download

1 item selected

Rhett Cosmo_Casual_v1.0.zip
349.87 MB

I'm always working on new packages and updates to old packages. To help you prepare for potential version changes, you can check out progress on the website.

Check the Website

You can see an up-to-date schedule of my work at **www.stellargameassets.com/schedule**. (Functionality is limited on mobile).

This page gives a quick overview of updates to current projects, as well as projects in the works.

In the near future, you will also be able to subscribe to notifications when a project update has been completed, or a new project has been released!
